

VETERINARY STAFF REFERENCE GUIDE

You Refer. We Handle the Rest.

Beacon is the collector of all samples.

HOW THE PROCESS WORKS

YOU REFER

Submit a referral using our simple Veterinary Referral Form.

WE SCHEDULE

We contact your client and schedule a convenient appointment.

WE COME TO YOU

Our trained collector comes to your clinic or approved location with all supplies.

WE COLLECT

We collect the DNA specimen using proper techniques and follow strict chain of custody.

WE HANDLE EVERYTHING

We complete all paperwork, package, and ship to our accredited laboratory.

RESULTS DELIVERED

We manage the entire process and deliver confidential, accurate results to your client.

WHAT WE NEED FROM YOUR CLINIC

1

COMPLETE THE VETERINARY REFERRAL FORM

Provide the following:

- Owner information
- Animal information
- Test requested

2

PROVIDE A QUIET SPACE

If the collection will occur at your clinic, please provide a clean exam room or quiet area for the appointment.

3

WE'LL HANDLE EVERYTHING ELSE

Our trained collector arrives with all necessary collection supplies.

SAMPLE TYPES BEACON COLLECTS

CANINE & FELINE

- Buccal (cheek) swab
- Hair with root
- Nail trim (when applicable)

EQUINE

- Mane hair with intact roots
- Tail hair with intact roots
- Buccal swab (when approved)

WHAT YOUR CLIENT CAN EXPECT

- ✓ Convenient appointment scheduling
- ✓ Professional mobile collection
- ✓ Gentle and compassionate handling of the animal
- ✓ Confidential service
- ✓ Accredited laboratory testing
- ✓ Accurate, reliable results
- ✓ Friendly customer support

WHAT YOUR STAFF DOES NOT NEED TO DO

- ✗ Collect DNA samples
- ✗ Prepare shipping materials
- ✗ Package specimens
- ✗ Coordinate laboratory testing
- ✗ Complete laboratory paperwork
- ✗ Track specimen shipments

Beacon manages every step so you can focus on patient care.

ON COLLECTION DAY, OUR COLLECTOR WILL:

Verify identities

Explain the testing process

Collect the specimen

Label all specimens

Complete chain of custody

Package specimens

Ship to the laboratory
